

Security Cap Spec Sheet

Description: The Hydra Shield Security Cap is forged from high strength alloy steel and designed to withstand the harsh environments. If you are looking to protect your hydrant and keep thief's from stealing your caps this product limits access to the hydrant hook up and also helps assist in preventing theft of caps for scrap. These caps connect to both small size outlets and also large size outlets. With these caps being heat treated to a 58-62 Rockwell C hardness these can virtually withstand a sledge hammer directly to the cap without any possible structural damage.

Component Material:

- Cap: Forged from 8620 carbon Steel – High Strength Alloy Steel
- Slip Ring: Forged from 8620 carbon Steel – High Strength Alloy Steel,
